

Dear RoDeos,

I would like to thank all myRoDeos for putting up great efforts in the last 4 months. While we all are working to achieve the objective of serving humanity, the most important thing is to enjoy the journey while getting there. We have undertaken some really interesting projects, touching the lives of children, Diabetic & Burns patients; Servicemen and we are just a quarter through!

In our coming months, we will be focusing on projects in key thrust areas of Medical, Health & Education. We will continue to conduct various medical camps addressing diseases like Diabetes, Tuberculosis & Cancer and have also taken steps to support Paediatric Heart Surgeries which will save the lives of about 20 children. We will also conduct a project on Drug De-addiction Treatment and Counselling Centre and Psychiatric Specialist OPD services for the poor to create awareness about addiction & Psychotic problems and various affordable modes for treating these issues.

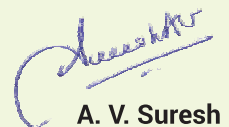

Children are the future of our nation and it is our duty to ensure that they have access to basic needs of life! We will be focusing on the key issue of Malnutrition through Community Based Management program. This will involve identification of medical needs of the malnourished children, provide food supplements and deworming tablets, and also train the families on home-based care!

We are also working on projects which will touch the lives of people with special needs, by giving them an opportunity to unleash their potential. Through our project "Swaranandawan", we will create a special platform for about 200 differently abled people to perform and provide

them with a psych-socio rejuvenating therapy by harnessing their latent talents. Our Rotaract Club of Deonaris also arranging "Talent Fiesta", one of a kind platform for specially abled children to showcase their talents in various performing and fine art forms. This event witnesses a participation of about 200 special students from over 10 schools in Mumbai.

By carrying out all the above activities across the society, we intend to touch the lives of at least 5,000 people during this year. However to make all of this happen, I will need your support, time and effort. I request you all to come in large numbers for our projects and meetings to enjoy fellowship and also the journey of making a difference in our society!

Best wishes,

A. V. Suresh

Conducted “**TAARE ZAMEEN PE**” drawing competition at Happy English School at Baiganwadi, Govandi. It was extremely heartening to see the creativity of the children and was very touching to see their happy faces on receiving certificates & medals for their piece of art. It wasn’t just a competition, but a medium for letting their creativity flow at its’ best!

Presentation on “**PAEDIATRIC HEART SURGERY**” by Dr. Suresh Rao (Paediatric Heart Surgeon) about his journey in saving the lives of the new born infants & children suffering from congenital heart diseases. We were moved listening to his experiences in saving these tiny hearts and we have committed Rs. 5,00,000/- which will save the lives of about 20 children! Thanks to our donor and well-wisher, ex Rtn. P. J. Reddy for his contribution of Rs. 3 L to this cause.

Fun, Frolic & Fellowship at **"Dandiya Raas"** held on 10th October at the Radio Club, an event which manifested in abundance joy and entertainment through dance and music! RoDeos were at their best! Our secretary, Rtn. Bijal Menon was a star performer!

“Fat Man Challenge”, a 3km marathon organized by Rotaract Club of Deonar to spread awareness about fitness and healthy living on 11th October on account of World Obesity Day. Around 30 people participated in this event and it was also backed up by a week’s social media campaign before the run with various posts on health and motivation by expert and experienced individuals.

Talk on **“WHAT IS YOUR PEAK IN LIFE?”** by Dr. Lucky Kasat (Consultant Pediatric Surgeon) was very motivational. He gave us an insight by sharing true unbelievable stories of climbers, who were differently abled, achieving the peak! This talk left us with a very powerful message - We all have it in us, we just need to do it!
